

Choosing a Thesis Supervisor for Students

The option to choose your thesis supervisor will be available on the main page of the Virtual University (WU), which you can access by selecting the **WU** tile on my.wsiz.edu.pl

In the central part of your dashboard, you will see a dark-blue banner — it will either show a **countdown** (if the official time for selecting a supervisor has not yet started or has already ended) or a link allowing you to **register for your seminar class**.

After clicking the **Sign up for classes** (*pl: Zapisz się na zajęcia*) button, you will be redirected to the **Registration page**, where you will find a list of compulsory subjects you must now enrol in.

In this case, it will be Diploma Seminar part 1, which represents the first semester of your diploma project work.

*Alternatively, you can reach the registration page through:
Subjects and Grades → Registration.*

Under the course title (click it), you will see a list of all lecturers leading the seminar. One of them will become your thesis supervisor until you complete your studies — this person will help you choose your thesis topic and support you throughout the process of writing, collecting data, and conducting research.

COMPULSORY SUBJECTS

IN.LSA.PRO.003 – Diploma Seminar part 1						0/1 items ^

SIGN UP

📍 Change possible until 11/5/25 7:05 PM

To enrol in a group (and thus select your supervisor), click the blue **Sign up** (*pl: Zapisz się*) and wait until the first scheduled class begins. If necessary, you can still change your choice before classes start — you can withdraw from one group (*pl: Wypisz się*) and join another.

If you already have an idea for your diploma thesis or you are simply unsure which supervisor to choose, you can check each **lecturer's research interests**. This information is available in the **Lecturer Search tool on WU**  , along with details about consultation hours and upcoming classes.
